Business significantly impacted by Covid-19 pandemic

Interim Report January - March 2020
Press Call, April 29, 2020
Disclaimer

The following presentations contain forward-looking statements and information on the business development of the Volkswagen Group. These statements may be spoken or written and can be recognized by terms such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “seeks”, “estimates”, “will” or words with similar meaning. These statements are based on assumptions, which we have made on the basis of the information available to us and which we consider to be realistic at the time of going to press. These assumptions relate in particular to the development of the economies of individual countries and markets, the regulatory framework and the development of the automotive industry. Therefore the estimates given involve a degree of risk, and the actual developments may differ from those forecast. The Volkswagen Group currently faces additional risks and uncertainty related to pending claims and investigations in a number of jurisdictions in connection with findings of irregularities relating to exhaust emissions from diesel engines in certain Volkswagen Group vehicles. The degree to which the Volkswagen Group may be negatively affected by these ongoing claims and investigations remains uncertain.

The recent outbreak of COVID-19 (commonly referred to as coronavirus) has negatively impacted economic and social conditions in primary markets of Volkswagen, including China and Europe, as public, private, and government entities have implemented containment measures. The continued spread of COVID-19 has caused shortages of necessary materials and parts from suppliers directly or indirectly affected by the outbreak and has caused operational disruptions and interruptions at Volkswagen’s production facilities, which led to production downtimes. The COVID-19 pandemic and the respective containment measures might continue to have a negative impact in the future.

A negative development relating to ongoing claims or investigations, the continuation of COVID-19, an unexpected fall in demand or economic stagnation in our key sales markets, such as in Western Europe (and especially Germany) or in the USA, Brazil or China, and trade disputes among major trading partners will have a corresponding impact on the development of our business. The same applies in the event of a significant shift in current exchange rates in particular relative to the US dollar, sterling, yen, Brazilian real, Chinese renminbi and Czech koruna.

If any of these or other risks occur, or if the assumptions underlying any of these statements prove incorrect, the actual results may significantly differ from those expressed or implied by such statements.

We do not update forward-looking statements retrospectively. Such statements are valid on the date of publication and can be superseded.

This information does not constitute an offer to exchange or sell or an offer to exchange or buy any securities.
Media Webcast and Conference Call: January - March 2020

Frank Witter
Chief Financial Officer
Volkswagen AG

Dr. Christian Dahlheim
Head of Group Sales

1) Volkswagen Group Passenger Cars excl. Volkswagen Commercial Vehicles  
2) Incl. Light Commercial Vehicles in North America & South America  
3) Incl. Hong Kong
China: Total Market - Plan 2020 vs. Previous Year

Total Market Passenger Cars (Thd. Veh.)

- Actual
- Plan
- Previous Year
Scenarios for Macro Economic Development

**V-shape**
- fast recovery (”Catch-up”)
- **ILLUSTRATIVE**
- Market Level
- Compensation of volume loss
- Before crisis
- Crisis
- Source: BCG 2020
- Classical short term economic crisis
- Regain effects via sales post crisis

**U-shape**
- delayed recovery (”Rebound”)
- No compensation of volume loss...
- ... but return to previous growth path

**L-shape**
- no recovery / recession
- Permanent regression
- Continuous disruption of market growth due to impairment of growth drivers (e.g. customers, prices, labour force ...)
## Volkswagen Group – Key Figures
(January - March 2019 vs. 2020)
